"IMPERIAL" SET OF ROSES

SEE FIRST COVER PAGE FOR THESE "IMPERIAL" ROSES IN COLORS.

Price of These "Imperial" Roses, 30 Cents Each, or the Three for 75 Cents; Two-Year-Old Plants, 60 Cents Each, the Three for \$1.50.

MADAME RAVARY—It is probable that more of this yellow Rose is planted in England, Ireland and the continent than all other yellows combined. In habit and growth it is much like Madame Caroline Testout. The buds are long and pointed, of a beautiful golden-yellow, opening into enormous flowers of orange-yellow, the edge of petals shading lighter, making a combination of color that is irresistible. Extra grand.

KAISER WILHELM II—Growth vigorous and upright. Flowers large and very full. Buds elongated, always opening well. Color the richest shade of velvety crimson, almost black. An excellent garden Rose.

MY MARYLAND—An American Rose that has jumped into popular favor at once, sweeping the decks of both Europe and America clean. Color glowing, intense pink; large, full and of fine form. The freest Rose in growth and bloom that we know. This is a wonderfully fine Rose for the garden. Always produces fine buds and flowers and always in bloom.

Garden Collection of Hardy Phlox

SEE OPPOSITE PAGE FOR THESE HARDY PHLOX IN COLORS.

Price, 10 Cents Each, or the Seven Varieties for 50 Cents.

No. 1—**COQUELICOT**—Bright scarlet.
No. 2—**R. P. STRUTHERS**—Cherry-red.
No. 3—**ECLAIREUR**—Rosy-magenta.

No. 4—**ALCESTE**—Violet-blue.
No. 5—**PANTHEON**—Clear pink.
No. 6—**BRIDESMAID**—White, red eye.
No. 7—**INDEPENDENCE**—Pure white.

BAINES BEDDING ROSES

FOR THESE ROSES IN COLORS, SEE THIRD PAGE OF COVER.

Price, 15 Cents Each, or the Six Baines Bedding Roses for 75 Cents.

No. 1 WHITE MAMAN COCHET—A sport from Maman Cochet with creamy-white flowers, faintly tinged with blush; long pointed bud opening to large flowers; an exceedingly pretty and valuable variety that can be highly recommended.

No. 2 MADAME SEGOND WEBER—One of the grandest novelties of recent years; everybody is talking about it, and the more one knows of this wonderful Rose the more he will talk about it, and, what is of real value, every bit of talk about Mme. Segond Weber is in praise of her. Rosy-salmon or flesh-pink in color, of the general type and color of "My Maryland." The bud is long and pointed, opening into enormous blooms which deepen its color until fully expanded, when it is as impressive as an "American Beauty." The texture of the Rose is very thick and heavy and the form of the petals peculiarly beautiful. A great garden Rose; awarded two gold medals.

No. 3 RADIANCE—A new American Rose; there are none better. A brilliant rosy-carmine, displaying beautiful rich and opaline-pink tints in the open flower. The form is fine, largest size and full, with cupped petals. It blooms constantly and is delightfully fragrant. This is, next to President Taft, the strongest growing of all H. T. Roses. Simply grand; superb.

No. 4 SENATEUR MASCURAND—This is my pick of all the yellow Hybrid Tea Roses; it is a good grower, very free bloomer; flowers are large, full and globular; color deep orange-yellow, lighter on the edge of the petals. This is a much better garden Rose than Mrs. Aaron Ward. When I say orange-yellow I do not mean lemon-yellow; it is the yellowest of all Roses.

No. 5 LAURENT CARLE—An extremely vigorous grower, with fine erect branching habit and fine dark-green foliage; long buds are borne on long stems, opening into large flowers of perfect form, just full enough to open freely, color brilliant velvety-carmine. A very promising variety; another Rose it will certainly pay you to try. I know it has a future.

No. 6 PRESIDENT TAFT—This Rose was raised in Cincinnati, the home of President Taft, and let me say right here, while some of you may not admire the President himself, you will, one and all, admire the Rose given his name. It is without question the most remarkable of all pink Roses. It has a shining, intense, deep pink color possessed by no other Rose. It is a fine grower, free bloomer, good size and form, fragrant, and in a class by itself as to color. Mr. Frank Good, who is probably familiar with more Roses than any man in America, says: "Talk all you want to about the Rose President Taft, and then you will not say enough." Do not confound this Rose with Leuchteuer, which some have attempted to rename President Taft.

Great Giant Garden Dahlias

FOR THESE DAHLIAS IN COLORS, SEE FOURTH PAGE OF COVER.

No. 1 MRS. ROOSEVELT—One of the giant flowered type, delicate light pink shading to soft rose towards the center. An exceptionally large and elegantly formed flower measuring seven to eight inches across. Greatly admired by all. An abundant bloomer. Many of the plants of this choice Dahlia do not make tubers like other Dahlias, but grow and flower from eyes on the stems. A wonder. Price, 40 cents each.

No. 2 MRS. CHARLES TURNER—Bright canary-yellow. Flowers of immense size, often measuring from seven to nine inches in diameter. This surpasses anything for size in yellow Dahlias. Try it. Price, 20 cents.

No. 3 CUBAN GIANT—Flowers of great size, measuring six inches across. Color dark, glowing crimson, shaded maroon. Magnificent. Price, 25 cents.

No. 4 SOUVENIR DE GUSTAVE DOAZON—The largest Dahlia up to date. Can you imagine a Dahlia nine and one-half inches across? Simply a monster, still it is not coarse, but has such elegant refinement that it impresses every lover of flowers with its grace, beauty and charming elegance, and never fails to make friends. These immense flowers are borne in profusion from the earliest moment of blooming until the very last; it improves with the season and grows more perfect; color a rich orange-red. Price, 30 cents each.

No. 5 CATHERINE DUER—(The Newport Dahlia.) Cherry-scarlet overlaid with crimson. Darker at the center. Its iridescence is unique and very striking, winning much favor as a cut flower variety. The fashionable flower at Newport. Especially good under artificial light. Price, 20 cents each.

SPECIAL OFFER—The entire set of five Great Giant Garden Dahlias, costing \$1.35, for only \$1.00. A great bargain.

GREETING

I feel sure that it will interest my friends and customers to know that my trade for 1912 was far in excess of any previous year. It took close to one million Roses to fill the orders you sent me; also two hundred thousand "Mums.," one hundred thousand Carnations, sixty-five thousand Ferns, twenty acres of Peonies, fifteen acres of Dahlias, ten acres of Phlox, five acres of Gladioli, six acres of Iris were some of the prominent items grown for my trade, until today my retail catalogue plant and bulb trade is by far the largest in the United States.

I have always made claim that the firm that sent honest goods at fair prices was bound to win. If keeping everlastingly at it will bring success, then I will get there. To those who have never tried me with an order, better give me at least a share of your needs.

Again thanking you for past favors and trusting you will speak a good word for my Plants, Roses, etc., to your friends and neighbors,

Your flower loving friend

MISS ELLA V. BAINES, The Woman Florist,
SPRINGFIELD, OHIO.

I have so much confidence in my Sure and Quick Blooming Roses that I am going to make it absolutely safe for you to buy your Roses of me. I guarantee the Roses on this page to bloom the first season or I will refund the money to you for plants that fail to bloom. All I ask of you is to properly plant and care for them. If any fail to bloom by Oct. 15, 1913, and you notify me at once I will refund the amount. Of course I will have to rely on your honesty in the matter of planting and caring for them. These Baines' Sure and Quick Blooming Roses have been especially grown to bloom at once. So many persons will not wait for the average Rose to bloom that I have decided to grow Roses that will bloom at once; here they are and you are getting full value for your money. You make no mistake in ordering them. Give them a trial.

Faithfully yours,
 MISS ELLA V. BAINES,
 The Woman Florist.

Little Rock, Ark., April 8, 1912.

Miss Baines:
 I'm tickled to death with my Roses. I did not lose one. My Climbing Meteor and Climbing Kaiserin went higher than the porch. They bloomed until frost came on November 11th.

MRS. R. C. HALL.
 Magnolia, Del., May 17, 1912

Miss Baines:
 The Roses and other plants you sent came as fresh as if just taken out. In twenty-three years I have been buying Roses I never got as fine plants.

MRS. T. A. McILVAINE.
 San Francisco, Cal., October 4, 1912.

Miss Baines:
 I am sending for forty-five Roses. I bought Roses from you four months ago. I live right near the ocean, and the ground is nothing but sand. I was surprised to see them all grow.

JAS. J. NEEDHAM.

REMEMBER, the Roses on this page are grown Especially for Sure and Quick Blooming.

THE FIFTEEN BEST NEW ROSES

After comparing all of the new Roses that I have tested the past two years (over two hundred varieties) from all parts of the globe. I have picked the following fifteen sorts as the very best. Any of them will enrich your collection.

EDWARD MAWLEY—Raiser's description: "By its marvelous outstanding qualities, is now generally regarded by rosarians as the greatest advance and most wonderful Rose yet raised. We have no hesitation in stating that it is the finest of all dark-crimson Roses, a true perpetual flowering Hybrid Tea, and the most beautiful variety the Rose world has yet seen. Gold Medal, National Rose Society. The grand novelty of Messrs. McGredy & Sons, they have very aptly named Edward Mawley, in honor of one of the best-beloved of British rosarians. It is an enormous, big-petaled Rose, much larger than Melanie Soupert, a Rose it resembles in form, but of the beautiful rich color of a Louis Van Houtte, only with a more velvety shading upon the inside of its petals. This Rose could not fail to receive the coveted gold medal of the National Rose Society." Price, 35 cents each; two-year-old, 75 cents each.

FARBENKOENIGIN—This is well named the Queen of Colors; my own personal opinion is that there is no finer Rose grown than this beautiful sort. It is large and full; color bright carmine and rosy-crimson, overlaid with a satiny-silver sheen. Very floriferous. Simply grand. Price, 25 cents each.

HERZOGIN MARIE ANTOINETTE—Very long buds of pure orange or old gold; very large flower of perfect form. Soupert & Notting, of the Grand Duchy of Luxembourg, says: "This is the finest yellow of all yellow Roses." Gold medal, M. Gladbach; certificate of merit of the German Nurserymen's Society; also prizes of honor at Leipzig, Sangerhausen and Zweibrücken. Price, 25 cents each.

JONKHEER J. L. MOCK—This grand Rose is the strongest growing in the Hybrid Tea class. The blooms, which are produced with the greatest freedom, are carried on stiff and erect stems, and are of the largest size, of perfect formation and highly perfumed. Color clear imperial-pink; a glorious flower. Awarded two gold medals, one silver medal and five first prizes in Europe. I can confidently recommend this sterling novelty as a most valuable addition. Price, 25 cents each; two-year-old, 50 cents each.

KILLARNEY QUEEN—A cerise-pink sport of Killarney that for clearness and brightness of color has not been equalled; exceptionally strong in growth, with foliage that is perfect, being larger than Killarney and more glossy. In size of petals Killarney Queen is larger than its parent, and for high-grade bloom it is a very superior variety. Forces fine. Price, 25 cents each; two-year-old, 50 cents each.

LADY ALICE STANLEY—This, I predict, will become very popular as a garden Rose. The petals are shell-shaped, forming a perfect flower; the color on outside of petals is a deep coral-rose; inside, delicate flesh, often flushed and suffused with bright flesh. Remarkably attractive, without doubt; a magnificent Rose. Awarded gold medal. Price, 25 cents each; two-year-old, 50 cents each.

LIEUTENANT CHAURE—Bud long and pointed; color velvety-crimson, opening to large flowers of crimson-red, shaded garnet; flowers of great depth and nicely cupped form; flowers very freely produced and deliciously fragrant. In every way a grand Rose. Price, 25 cents each.

MARY COUNTESS OF ILCHESTER—In the opinion of many expert rosarians this must be classed as one of the finest novelties. Mr. Roger Murphey, who has worked with Roses for the past forty years, says: "This Rose has come to stay. After trying out all the novelties of the past five years, I place the Countess Mary first." The color is unique and distinct, being a warm crimson-carmine, a shade difficult to describe; of great size, with large, smooth, circular petals, deliciously scented. Simply grand. Price, 25 cents each; two-year-old, 50 cents each.

MANUEL P. AZEVEDO—The introducers say: "A splendid large double, upright flower of an ideal form. Color fresh cerise-red, with waxlike petals. This first-class novelty has the hardness and splendid form of Ulrich Brunner and is as free-blooming as Etoile de France, one of the first and finest blooming in the Rose garden. A new, rare and invaluable color; sweetly perfumed." Mr. Frank Good, the eminent rosarian, says: "This Rose has come to stay; it has already made for itself a place that is secure." Price, 35 cents each.

MELODY—A most charming and decidedly beautiful Rose, which attracted the attention of all visitors to my Rose gardens during the past summer because of its marvelous free-blooming qualities. The blooms are of good size; the color is an intense, pure, deep saffron-yellow, with primrose edges, a delightful color harmony. A Rose of the highest merits. Price, 20 cents each; two-year-old, 40 cents each.

Farbenkoenigin, or Queen of Colors.

MISS CYNTHIA FORD—This Rose possesses in a superlative degree the essential point of an ideal garden Rose, viz., form, brightness, vigor and habit. In color it is a deep brilliant rose-pink, very large, perfectly formed and very full. It is sweetly perfumed and lasts a long time in good condition. Gold medal, National Rose Society. Price, 20 cents each; two-year-old, 40 cents each.

MRS. CHARLES CUSTIS HARRISON—Is a Rose of great beauty and distinctness. The flowers are produced in wonderful profusion; the blooms are large, full and of globular form; the petals smooth, circular and of great substance; color deep crimson-pink on front of petals, crayoned deep crimson-carmine on the reverse side, a warm color that lights up well when held in varied positions of light; very highly perfumed. Price, 25 cents each; two-year-old, 50 cents each.

MRS. EDWARD J. HOLLAND—The color is a beautiful deep salmon-rose, shaded lighter towards the edges; perfect in both shape and form, with an unusually high pointed center. The petals are of great substance and beautifully arranged, forming a model flower of exquisite beauty, because of the marvellous freedom with which it produces its blooms throughout the whole season. Will prove one of the finest and most striking garden Roses yet produced. Price, 25 cents each; two-year-old, 50 cents each.

PHARISAER—This is a great Rose, but has not been offered to any extent in this country. There is never a Rose exhibition in England that this Rose does not have to be taken into account. The color is a rosy-white, shaded salmon; large, full and well formed; very free blooming. Price, 20 cents each; two-year-old, 40 cents each.

SUNBURST—This magnificent giant yellow Rose is a fine forer; it stands head and shoulders above all others of its color and will rank with American Beauty and the Killarneys in value and grandeur. It has long, pointed buds, which can be cut tight for market. The color is orange-copper or golden-orange and golden-yellow; edge of petals lighter; all intense shades, extremely brilliant in effect. Belongs in the class of big Roses; has created a sensation wherever shown. Price, 35 cents each; two-year-old, 75 cents each.

Special Offer The Fifteen Best New Roses, costing \$3.90, sent for a remittance of \$3.00. In Two-Year Plants, the 11 as named, costing \$5.70, sent for a remittance of \$4.75.

EVER-BLOOMING ROSES--Newer Varieties

I have not space to give extended description of these new varieties of Roses. They come from the noted rosarians all over the world, including England, Ireland, France, Germany, Luxemburg, Holland and the United States. These Roses, including the ones named on page 4, show the advancement made in the past two or three years in this popular flower.

Richmond, Va., November 2, 1912.

The Rose bushes you sent me last spring have grown splendidly, and although I bought the small ones, they are now quite large bushes. Have bloomed all summer and are now full of buds; and what seemed remarkable to me, the buds and Roses are as large as those grown on two-year-old plants. I expect to order quite a number of Roses from you next spring.

MRS. W. S. BRADLEY.

The "GEM" List of New and Choice

EVER-BLOOMING ROSES

STANDARD VARIETIES—For House Culture or Outdoor Planting

Price, 10 cents each, three for 25 cents; any seven of your own selection for 50 cents; any fifteen for \$1.00. If you leave the selection of the varieties to me, I will send nine for 50 cents, or twenty for \$1.00. Large two-year-old Roses from this list, 25 cents each, or five for \$1.00.

For general planting, more especially in open ground, this class excels all others. One-year-old plants, such as I send by mail, bloom the first and each succeeding year from early spring until severe frosts. Two-year-old plants, of course, yield a greater profusion of flowers, owing to their size. The flowers are noted for their exquisite coloring and delightful fragrance; hardy everywhere in open ground with protection of litter, leaves, evergreen boughs or similar material. Plant liberally of one-year-old Roses; the harvest of bloom they give the first year compensates for the trifling outlay. Anyone can succeed with them.

Luttrell, Tenn., August 30, 1911.

My Dear Miss Baines:—Last February I purchased sixty of the "Gem" list of choice ever-blooming Roses. They have done exceedingly well, and fifty-two are in full bloom today. They began blooming in May, and are so pretty everyone wants to know where I got them. Wish you could see my garden today.

ELIE BEAUVILLAIN—A beautiful salmon-fawn; on the order of Gloire de Dijon.

FRANCES E. WILLARD—The grandest of all white Roses. Large, full flower; snow white.

GAINSBOROUGH—I am proud of the fact that I introduced this Rose. Its delicate coloring is difficult to describe, being delicately tinged fawn, almost white and lustrous as satin. When in full bloom it resembles a large, fine, white fluffy Peony, but without a suggestion of stiffness, often measuring eight to nine inches in diameter. An enthusiastic admirer from the state of Oregon describes it as a Rose reminding him of a beautiful girl wearing a light colored Gainsborough hat, ornamented with white ostrich plumes, hence the suggestion of its name. Be sure and try this Rose.

GLOIRE DE DIJON—Color buff, with orange center; very large and very double and full; the first to flower, and keeps on until the very last; the hardest of any of the Tea Roses, and deliciously tea-scented. Good in any situation, either as a bush or pillar Rose. Price, 20 cents each.

JAMES SPRUNT—Deep cherry-red; very double and hardy.

LAMARQUE—White shaded lemon; large, very sweet scented.

MAMIE—A Rose that has been out for some time, but in the shuffle became lost. It has so many points of great excellence that I have resurrected it, and I predict that before many moons have rolled around it will be planted largely. It is a strong grower with buds and flowers of the largest and most perfect shape and form. The color is exquisite, being a delicate fawn with heart of pink. One of the most beautiful of light colored Roses. Don't forget this Rose. It will make a place for itself among the leaders. Since the above was written a couple of years ago, the demand for this Rose has exceeded my facilities for producing it. It is simply in a class by itself. Price, 15 cents each.

Tender Climbing Roses, Standard Varieties—Concluded

MARECHAL NIEL—This is the old standby yellow Rose in the South, where it is hardy; indeed, it will bloom in any garden, but is not hardy in the North. Immense deep golden-yellow flowers with the deepest, richest, tea fragrance of all Roses. Price, 15 cents each; stronger plants, 25 to 50 cents, according to size; strong, one-year-old, \$1.00; two years old, \$1.50; three years old, \$2.00.

PILAR OF GOLD—The blooms are double to the center, of the largest size, and come in immense bouquets of from five to ten blooms on a single branch, and the effect throughout the blooming season is a perfect sheet of color. The color, ruby-red suffused with golden-yellow, is a happy combination.

REINE MARIE HENRIETTE—Deep cherry-red. This Rose takes the lead as a climber from New Orleans to Philadelphia.

REVE D'OR, or GOLDEN CHAIN—Buff-yellow, very free bloomer; very pretty. Strong grower; will do well in any situation.

MISCELLANEOUS ROSES

Price, except where noted, 10c. each; two-year plants, 35 cents each.

AMOENA (The Pink Flowering Cherokee Rose)—This wonderfully beautiful Laevigata or Cherokee Rose was raised in California, and it will sweep the state like wild fire when it is once known. The flowers are the same as the white flowering Cherokee, except that the color is a glowing pink with golden-yellow center. Resembles huge apple blossoms. Stock scarce. I have a fine lot. Price, 15 cents; two-year-old, 50 cents.

DOUBLE LAEVIGATA (Or the Double Flowering Cherokee)—A beautiful hardy Rose, bearing double white flowers; very fine. The foliage of this Rose is very distinct.

FORTUNE'S DOUBLE YELLOW (Or Beauty of Glazenwood)—Yellow flaked with carmine; very charming color.

LAEVIGATA (The Single White Cherokee Rose)—This is the famous Cherokee Rose so well known in California. Large, pure white flowers with center filled with golden-yellow anthers.

MICROPHYLLA ALBA—A most vigorous grower; very hardy; bears semi-double flowers of a creamy-white. This is the Rose Keystone you hear so much about.

NEW CENTURY—Hybrid Rugosa. A grand Rose that is entirely hardy, bearing beautiful silvery-pink flowers in clusters. This Rose is in bloom all the time. Extra fine for nurseryman. Price, 15 cents; two-year-old, 50 cents.

SIR THOMAS LIPTON—Hybrid Rugosa. The best pure white Rugosa Rose. Strong and vigorous; grows four feet high. Flowers perfectly double, pure snow-white. Fragrant, borne on long stems continuously throughout the season. Absolutely hardy everywhere. Splendid for hedging cemetery and park work. Price, 15 cents; two-year-old, 50 cents.

WHITE BANKSIA (Or Lady Banks)—A vigorous grower, in California growing to the top of tall trees and completely enveloping the entire tree; small double pure white flower in clusters, with the true Violet fragrance; very desirable. Price, 15 cents; two-year-old, 50 cents.

WICHURAIANA (Memorial Rose)—It readily adapts itself to any soil and will do well under any condition. The pure white single flowers appear in greatest profusion during the month of July, after the June Roses are all past.

YELLOW BANKSIA (Or Lady Banks)—Same as White Banksia, except color of blooms is sulphur-yellow. Price, 15 cents; two-year-old, 50 cents.

MOSS ROSES

These are probably a sport of the Cabbage Rose. The origin of the double Moss Rose is left to conjecture. They have always been favorites, for what can be more elegant than the bud of the Moss Rose and more delicious than its fragrance. Perfectly hardy. Price, 25 cents, the four for 80 cents; two-year size, 40 cents, the four for \$1.25.

ELIABETH ROWE—This is an old favorite with its large deep pink buds well mossed. A beauty.

HENRI MARTIN—Large full flower of deep red; well mossed; fragrant.

MOUSELINE—Pure white flower, buds heavily and beautifully mossed.

PRINCESS ADELAIDE—Deep blush-pink with buds that are thoroughly mossed.

PERNETIANA ROSES

THESE HYBRIDS WERE INTRODUCED BY A FRENCH GROWER.

The following varieties are all entirely new, and resist the coldest weather. They produce flowers in the greatest abundance with strange colors not to be found in any other section of the Rose. I cannot supply these on their own roots, as they absorb plants that we import.

ARTHUR R. GOODWIN—This is a genuine "Pernetiana," and is perfectly hardy everywhere. The color is coppery orange-red passing to salmon-pink as the flowers expand. A superb combination of color; flowers medium to large and full. Should prove a most valuable Rose. As this variety grows from cuttings, I offer it on its own roots. Price, 35 cents; two-year-old, 75 cents.

JULIET—A very distinct and attractive novelty, blooming both in summer and autumn. Strong, vigorous growth, with large and very double flowers; outside of petals old gold; interior rich rosy-red, changing to deep rose as the flowers expand. Of powerful and delicious fragrance. Has been universally admired wherever exhibited. A variety which is bound to create a sensation. Price, two-year budded plants, only \$1.00.

LYON ROSE—(Named in honor of the city of Lyons, France, where these Roses were given to the world.) Pronounced by experts to be the most important introduction of modern times. Flowers large, full and double, of remarkable substance; shrimp-pink, edges coral-red or salmon-pink, shaded chrome-yellow; exceedingly fragrant and perfectly hardy. Has been awarded the highest prizes at the many exhibitions in Europe. Price, two-year budded plants, \$1.00.

RAYON D'OR—(Rays of Gold.) This is the Rose that won the gold medal awarded by the city of Paris at the international exhibition of new Roses held at Bagatelle in 1907 and 1909. It has taken prizes of honor at a number of other places. Entirely hardy. Rayon d'Or is indisputably the deepest of all the yellow colored Roses in existence. The bud is oval shaped, coppery-orange, streaked with brilliant scarlet bars. The open flowers are large, full, of fine globular form. Color on first opening superb cadmium-yellow. When fully expanded the color is a deep, brilliant sunflower-yellow, which does not fade. Produces its flowers in great profusion, and revels in all weathers. When massed it forms the most glowing decoration of the garden. An incomparable yellow Rose. Price, two-year budded plants, \$1.50.

SOLIEL D'OR—(Golden Sun.) This Rose is the first of a new race unique in habit of growth and color. The flowers are large and globular, very full, the center petals well incurved, giving a double effect. Color is a blending of golden-yellow and reddish-gold, shading to golden-orange and nasturtium-red. Deliciously fragrant. Very hardy and free-blooming. Price, two-year budded plants, 50 cents.

HYBRID PERPETUAL ROSES

NEWER VARIETIES

The first Hybrid Perpetuals were grown from crosses between Hybrid China and Tea Scented Roses with Gallica and Bourbon Roses. This is a beautiful class and cannot be too highly recommended, including, as it does, many of the hardiest early and late flowering kinds, and nearly all of the superb rich crimson red and pink varieties which make such pleasing contrasts to the yellow and white Teas.

AMERICAN BEAUTY—Not a new Rose, but a great favorite with everybody. It is the largest of all red Roses. Always scarce. We have a fine stock. Price, 25 cents; two-year-old, 50 cents.

AVOCA—Brilliant velvety-crimson with large smooth petals and high pointed center; buds very long; flowers of largest size and sweetly perfumed. Awarded gold medal of National Rose Society of England. This is catalogued abroad as a Hybrid Tea; in America it is a Hybrid Perpetual. Price, 20 cents; two-year-old, 40 cents.

BARBAROSSA (The Red Frau Karl Druschki.) A noteworthy new Hybrid Perpetual that has jumped into favor in a very short time. It is very large and full; color a brilliant tone of pure carmine-red; very free bloomer, and deliciously fragrant. Price, 20 cents each; two-year-old, 50 cents.

CONRAD FERDINAND MEYER—This Rose has Rugosa blood in its make up and is classed by some as a Hybrid Rugosa; it's the best Hybrid Perpetual you have ever known. This is a grand Rose, a vigorous grower, and free bloomer; flowers large, perfectly double, cup-shaped. Color deep, bright, vivid, intense pink, with the penetrating fragrance of the old June Roses. I have grown this Rose for four years, in sections of the country from Canada to the Gulf, and I have no hesitancy in saying after the most thorough and rigid test that a Rose can be put to that this Rose is in every respect just what I claim for it. That is, the very best all around Rose ever introduced by anyone, and to this I make not a single exception. It grows vigorously, it blooms freely, is absolutely hardy, flowers of the largest size; the form is perfect, the coloring unequalled and the fragrance delicious. Can you ask more? Price, 25 cents; two-year-old, 50 cents.

CAPTAIN HAYWARD—This Rose ranks up at the top of the list. Mr. Crowell, the noted rosarian, claims for this the very best of all red Hybrids. Hardy Climbing Roses NEWER VARIETIES

INCLUDING THE RAMBLERS, CL. POLYANTHAS and WICHURAIANA.

These Roses are suitable for planting where they can climb on walls, fences, galleries, porches, pillars, pergolas, arches, etc.; in fact, wherever a hardy climber is required. This list includes the Ramblers, Climbing Polyanthas, Wichuraianas, etc.

AMERICAN PILLAR—Climbing Polyantha. A new single flowering Rose with blooms two to three inches across, borne in immense clusters. Color lovely apple-blossom-pink with bright golden stamens followed in autumn with red hips. A great Rose to grow in pots for Easter. Price, 15 cents; two-year-old, 40 cents.

CLIMBING AMERICAN BEAUTY—Climbing H. P. A seedling from American Beauty with Wichuraiana and Tea blood in its veins. The introducers say of it: "Same color, size and fragrance as American Beauty, with the addition of the climbing habit. Good foliage, and better blooming qualities. One plant of this new Rose will produce twenty times as many flowers in June as the old American Beauty, besides blooming occasionally during the summer. Blooms three to four inches across; has proved perfectly hardy and stands heat and drought as well as any Rose in our collection." I feel sure this Rose has a great future. 25 cents; two-year-old, 50 cents.

CLIMBING BABY RAMBLER—Climbing Polyantha. This is a true ever-blooming Crimson Rambler, for at this writing (August 1st) it is in full bloom in the garden with enormous heads of richest crimson. There has been a widespread demand for a Crimson Rambler that would bloom more than once. Here you have it. Everyone knows how Baby Rambler is always in bloom. This is simply a climbing form of the Baby Rambler, embracing all its good qualities. Price, 20 cents; two-year-old, 40 cents.

DR. W. VAN FLEET—Wichuraiana. Flowers when open run four inches and over in diameter. The center is built high, petals beautifully undulated and cupped. The color is a remarkable delicate shade of flesh-pink on the outer surface, deepening to rosy-flesh in the center. The flowers are full and double, of delicate perfume; buds pointed. It very much resembles *Souv. de Pres. Carnot* in color. Superb. Price, 20 cents; two-year-old, 40 cents.

FLOWER OF FAIRFIELD—This is a much heralded ever-blooming Crimson Rambler; deep crimson in immense clusters. Price, 15 cents; two-year-old, 30 cents.

GOLDFINCH—Buds deep yellow, opening lemon-white, semi-double, borne in large trusses. 20c; two-year-old, 40c.

GRAF ZEPPELIN—Climbing Polyantha. A brilliant rose colored flower that attracts from a great distance; vigor of Crimson Rambler. Cupped form; double. In immense trusses; unusually floriferous. This Rose is unsurpassed as a climber. Price, 25 cents.

HIAWATHA—This is a great favorite to force in pots for Easter. Brilliant scarlet-white at base of petals; flowering in large clusters most brilliant and effective. Price, 25 cents; two-year-old, 50 cents.

RED DOROTHY PERKINS—(Excelsa.) It is a good deal to claim for a Rose, but I am within bounds when I describe Excelsa as a brilliant Crimson Rambler flower on glossy, varnished Wichuraiana foliage. The defects of Crimson Rambler are its unsightly foliage in unseasonable weather, and its defoliation by insects; the infusion of Wichuraiana blood assures an ornamental climber which is nearly evergreen, and this will assure this lovely crimson-scarlet pillar Rose a place in every American garden, for it is quite hardy in addition to all its other fine points. If you want the best red climbing Rose, plant Red Dorothy Perkins. Price, 25 cents; two-year-old, 50 cents.

Red Dorothy Perkins.

MRS. F. W. FLIGHT—Beautiful pink with white center; semi-double, large trusses; lovely. Price, 20 cents.

TAUSENDSCHOEN or THOUSAND BEAUTIES—A climbing Rose that comes to us from Germany. The flowers upon first opening are the most delicate shade of pink ever seen in a Rose, might be described as a white delicately flushed pink changing to rosy-carmine. It gets its name from its many flowers and the variation in coloring; beautiful; will become as famous as Crimson Rambler or Dorothy Perkins. I wrote the above a year ago, and now I can add that this Rose is sweeping the country like a prairie fire. You can word paint all you want to and then you will have left something unsaid. Simply a wonder. Price, 20 cents; two-year-old, 40 cents.

VEILCHENBLAU, The Blue Rose—The most wonderful Rose of the century for the reason that it marks a decided advance in the color of the Rose hitherto only dreamed of. Veilchenblau or Violet Blue is the proper name, but no doubt it will be known in America as the Blue Rose. This Rose is going to have a larger sale by far than Crimson Rambler. Have I seen it flower? Well, I guess yes, and my word for it if you want something to cause you to stop and take notice, the Blue Rose will fill the bill. At a distance of fifty or a hundred feet a bush of the Blue Rose in full bloom will startle you. A seedling from Crimson Rambler, semi-double flowers larger than that variety, produced in large trusses. This Rose first opens pink, but quickly changes to violet-blue. The introducer describes it as being reddish-lilac, changing to amethyst and steel blue. Very distinct and extremely pleasing. A wonder. Price, 20 cents; three for 50 cents; two-year-old, 40 cents.

WHITE DOROTHY PERKINS—(B. R. Cant, 1908.) It has been the cry of nurserymen for years for a white climber that would rank up with Crimson Rambler, and now I have the pleasure of offering this White Dorothy Perkins that in every way is the equal, if not superior, to Crimson Rambler as a red, and Dorothy Perkins as a pink. This Rose has no rival as a white climber. Price, 20 cents; two-year-old, 40 cents.

Madison Rose (See page 5).

MRS. TAFT—This is the improved Baby Rambler; clear red in color, not fading like Baby Rambler. Certificate of merit of the London Horticultural Society. Price, 20 cents; two-year-old, 40 cents.

MRS. WILLIAM H. CUTBUSH—Has flowers with the pleasing delicate pink of Dorothy Perkins, blooming in profusion all summer. Extra fine for pot culture. Price, 20 cents; two-year-old, 40 cents.

ORLEANS—The showiest and prettiest of all the Baby Ramblers. This charming and dainty Rose is of beautiful rounded habit and is a huge bouquet of deep cerise or Geranium-pink with distinct showy center of pure white; florets not crowded, but of beautiful arrangement, making as a whole a charming combination that cannot be beaten. The color is irresistible. The plant grows like a weed and the flowers are nearly "immortelle" in their lasting qualities. I believe that they will outlast almost any other Rose in existence with their stiff paper-like texture. This pretty Rose has taken Europe by storm and will make a sensation as soon as known in this country. Awarded gold medal. Price, 25 cents; two-year-old, 50 cents.

SPLENDID PEONIES Hardy Everywhere

"ARISTOCRAT OF THE FLOWERS."

"Peonies for Pleasure."

This book of "Peonies for Pleasure" gives information on Peony history; soil and plants to use; how and when to plant; fertilizers and how to apply, and describes the most extensive planting of really valuable Peonies ever gathered together under the sun; describes the old and the new, as well as the plebeian and aristocrat of the Peony family. If you want information on the plant that stands next to the Rose in beauty, that is practically known to the amateur as simply a red, white and pink Peony, then send for "Peonies for Pleasure."

Festiva Maxima in Full Bloom.

The wonderful improvement made during recent years in these old-fashioned hardy plants has brought them into renewed popularity. The gorgeous flowers, which rival the finest Roses in size, form and color, are produced in great abundance. After once being planted they require little care and attention, thrive anywhere, and are absolutely hardy even in the coldest climates; each year after planting they grow into greater value, producing more and more flowers. They are not troubled with insect pests. Try some of my fine Peonies, and see what grand flowers they are. Get it out of your head that there are only Red, White and Pink Peonies to illustrate at flowering time. People who visit my field will say, "I have Pink and White Peonies. I desire only Red ones," but when they are shown the Pink and White, they invariably exclaim, "How grand! I have none like them." There is as much difference in Peonies as there is in Roses.

PEONIES DESCRIBED

ALBERT CROUSSE—Immense, very full, convex bloom, as perfect in outline and contour as a Show or Fancy Dahlia flower. The petals are imbricated like a Carnation, and overlap each other. The color is best described as an even, delicate, sea-shell pink, an unusual shade for a Peony, and is unapproached in this regard by any other variety. This grand Peony has all the points of excellence. A most striking flower. Price, 75 cents.

AMERICAN BEAUTY—Very brilliant crimson, full, double flowers on wiry stems; coloring is wonderfully rich and brilliant. This is known as the American Beauty Peony on account of the resemblance in color to the Rose of that name. Good cut flower, red. Price, 50 cents.

ASA GRAY—Large, full imbricated; rose-formed bloom; guard petals salmon-flesh; center very full and perfectly formed; color lilac sprinkled with minute dots of deeper lilac; striking, imposing and beautiful. No Peony produces more flowers; fragrant and distinct. Price, 75 cents.

AVALANCHE—Avalanche, in my estimation, is one of the finest Peonies grown. Large, convex bloom of perfect form; color milk-white with cream-colored center; has ruby-colored markings of rare delicacy and beauty on some of its petals. A superb Peony. None better. Price, 75 cents.

BALL OF SNOW—Large cup-shaped bloom of good substance and perfect form. Color white with sulphur center, bordered carmine; erect, tall grower; fine cut flower variety; follows Festiva Maxima. Price, 50 cents.

BERLIOZ—Enormous, full, globular, imbricated bloom, bright currant-red center tinted rose, and shaded with amaranth. The petals are distinctly tipped silver. A very showy and beautiful Peony. Price, 50 cents.

CANARI—Primary petals white, flushed pink with deep primrose-yellow center; sweetly fragrant; tall grower. Price, 35 cents.

CROWN OF GOLD—This is the famous Crown of Gold; immense, fine shaped bloom; color, snow-white, reflecting golden-yellow, with a circle of golden stamens showing through the petals, lighting up the whole flower, and which suggests the name; delicate carmine edges on a few central petals. The attainment of perfection in Peonies. Price, 75 cents.

DUCHESSE DE NEMOURS—Blooms several days after Festiva Maxima. Superb cup-shaped, sulphur-white flowers with greenish reflex that lights up the entire flower; gradually changes to a pure snow-white without spot or blemish. In all Peonies there is nothing so exquisitely chaste and beautiful as this variety in the half open bud state. In growth it is entirely distinct, being upright and branching. Certainly a grand Peony. Price, 35 cents.

DUKE OF WELLINGTON—Two rows of large, broad, guard petals of pure snow white. Center of flower sulphur-white. The flower is of enormous size. Our three-year plants will measure eight inches. It is pyramidal in shape. A flower you will never forget. Price, 50 cents.

EXCELSIOR—Bright, rich, deep, crimson of velvety texture.

One of the best of the red Peonies. Price, 35 cents.
FELIX CROUSSE—All Peony enthusiasts are familiar with the fact that it is difficult to get a red Peony that is a self color; that is to say, a full, rich, even shade of red without being suffused with violet, purple or crimson shades. Felix Crousse fills the bill. Its large, globular flowers, solid and compactly built from edge to center, are a rich, even, brilliant, dazzling ruby-red. Exceptionally fiery, bright and effective. Both the color and size is startling. I place this in the front rank of all the red Peonies. As a general purpose red none better. Price, 75 cents.

Peony, La Tulipe.
(See description on next page.)

PEONIES DESCRIBED—Continued

EDULIS SUPERBA—Beautiful brilliant pink, with silvery reflex; large, well-formed, full flower on strong stem; blooms early with Festiva Maxima, and is a good sort to plant with that variety. Price, 35 cents.

FESTIVA MAXIMA—This is not only the finest white in existence, but many regard it as the queen of all the Peonies. Mr. Harrison says: "This flower has reached the ultimate beyond which we cannot go. Here at the door stands Festiva Maxima, white as the soul of the Madonna, with now and then a blood drop, as though the iron had sometime entered her heart. What a marvelous flower!" It combines enormous size with wondrous beauty; often seven to eight inches in diameter. Clear carmine spots on edge of center petals. For over sixty years it has held first rank, and is still the standard of perfection by which all other Peonies are judged. Price, 50 cents.

FLORAL TREASURE—Very large, full flowers of clear, even pink, shading lighter at the center; very delicate color. "A splendid hemisphere of fragrant loveliness." Long stems uphold the big, handsome blooms. Almost seven inches across; a most unique and charming variety. Fine for cut flowers. Price, 50 cents.

GIGANTEA—Enormous flowers six to seven inches across on long stems; color the most exquisite shade of bright pink, tipped with silvery-white, reflecting a silvery sheen; deliciously fragrant. Fully as effective for decorative purposes as the largest and showiest Chrysanthemum. Gigantea is a ravishingly beautiful wild flower. A wonder. Price, 75c.

GOLDEN HARVEST—A most striking variety producing large, tricolored bloom. The guard petals are bluish-pink with creamy-white center; center of flower overlaid and tipped with carmine. It combines cream, gold, white, pink, salmon, peach and apricot, the total color effect of the flower being creamy-pink; strong, delicate fragrance. Mr. Harrison says: "It breaks out into a wild, rollicking prodigality of beauty with its large flowers as to almost smother the plant so great is their profusion. We all take off our hats as they pass by and cheer for beauty." Price, 75 cents.

HUMEL—Very large, compact flower that is quite striking; color, cherry-pink, highly cinnamon scented. This is an old standby, being used largely for cut flowers. Price, 35 cents.

JENNY LIND—Large bloom on long stems; tall grower; free bloomer; color light pink with silvery reflex with narrow white petals interspersed with the center petalage; a most striking variety. Price, 50 cents.

Peony, Marie Lemoine.

LADY DERBY—A very tall, strong growing plant, bearing flowers of gigantic size, very double and full, borne in immense clusters; color pure white overlaid with a flush of delicate pink, tinged yellow at the base of the petals. A plant of this Peony in full bloom will startle you, and is a sight never to be forgotten; extra fine. Price, 75 cents.

LADY LEONORA BRAMWELL—Very large, full, compact flowers; uniform color of bright violet rose, with silvery-reflex that is very brilliant; has an occasional carmine spot on central petalage. Don't forget this one. Price, 50 cents.

Peony, Monsieur Jules Elie.

(See description on page 16.)

LA TULIPE—Enormous, globular, fragrant flowers, delicate bluish-white, shading to ivory-white, with red tulip markings on outside of guard petals. Again we quote Harrison: "There is no Peony so attractive in bud as this. First a ball interlaced with green, red and white. As it grows these interlacings become pronounced. There is no bloom whose unfoldings you watch with greater interest. It finally opens a solid ball of softest blush with streaks of carmine. There it sits in all its beauty, a glorious flower in a chalice of veined marble, emitting a delightful perfume." Price, 75 cents.

LEVIATHAN—Flowers of remarkable size and freshness in huge clusters, full and double, of unusual perfection of form. Color, apple blossom-pink, with each petal silver tipped. Fragrance agreeable and penetrating; magnificent. Price, 50 cents.

LOUIS VAN HOUTTE—Very fine, shapely bloom. Color, bright violaceous-red of dazzling effect; superb. Price, 35 cents.

MADAME DE VERNEVILLE—Bomb type, early. One of the most charming varieties on the market. Guard petals are pure white, very large and folding over the flower; the blooms are very full and double, of the purest white suffused with faintest blush except a few cream-colored petals and four red flakes on central petals; exceptionally free. I have counted sixty-five large, perfect blooms on one plant open at the same time. Certainly a wonder. Price, 35 cents.

MARIE JACQUIN—What shall I say of this large, glorious flower? Color glossy rosy-white, with rose tinge on buds, with a great wealth of golden-yellow stamens in the center, which gives it a very chaste and elegant appearance. When first planted the blooms come single, but after becoming established it is semi-double. The flowers of this charming variety suggest our native white Water Lily; fragrance very rich and languorous. This is quite dissimilar from all other Peonies and is a prime favorite with everybody, especially the ladies. Price, 50 cents.

MARIE LEMOINE—Undoubtedly Calot's masterpiece. The flowers are enormous and massive. Color ivory-white with occasional narrow carmine tracings on edge of some petals. The gigantic blooms come very late on stout, erect stems standing well above the foliage. A good commercial variety, and a sort the Peony enthusiast raves over, and well he may. Price, 75 cents.

MARIE STUART—Good sized flower; guard petals broad; color soft pink, center sulphur-white with a prominent crown flecked with crimson; fragrant. Price, 35 cents.

MASTERPIECE—Brilliant Tyrian-rose; free bloomer; a very distinct and beautiful variety; fine grower. Price, 50 cents.

PEONIES DESCRIBED—Concluded

MONSIEUR JULES ELIE—This is the king of all Peonies, and is without question M. Crousse's masterpiece. Immense globular, very full flowers. Color an ideal glossy lilac-pink, shading to deeper rose at the base, the entire flower overlaid with a sheen of silver that fairly shimmers in the sunlight. Monsieur Jules Elie is the largest of all Peony flowers. On young, vigorous plants I have had flowers eight and nine inches through. In fact they are so large and handsome that but few can realize they are Peony blooms on first seeing them. An unapproachable variety from any standpoint. When cut in the bud a good keeper. Price, 75 cents.

MONT BLANC—Large, perfectly formed, snowball-shaped flowers; white guard petals, center sulphur-yellow; perfect habit; foliage and growth both quite distinct; follows Festiva Maxima and ranks with it. Fine for cut flowers; very free bloomer. The yellowest of all Peonies. Price, 35 cents.

PRINCE IMPERIAL—Flowers very double and full; color, deep, brilliant velvety-crimson. It makes a handsome plant, every flower standing up straight and erect well above the foliage. I think this one of the finest Peonies, probably the best general purpose crimson. Price, 50 cents.

QUEEN VICTORIA—The very best every-day white. When cut a first rate keeper. Flower of good substance and color; very pretty in the bud state, when it has a faint blush tint; an old standby. Price, 35 cents.

SEA SHELL—This is one of the grandest of Peonies, a tall grower, and is such a free bloomer that it completely hides the plant; the coloring is so refined as to instantly arrest attention, being a delicate, soft lilac-pink, with delicate but distinct rosy-pink spots difficult to describe. This is in every way a superior Peony. Price, 75 cents.

VICTOR HUGO—Extremely large, showy, perfectly built bloom; primary petals narrow and built up close and high; color very deep, rich, brilliant solferino-red. Indispensable. Price, 35 cents.

VICTOIRE TRICOLORE—A tricolor bloom that has many admirers; color a combination of rose-pink and salmon, intermingled; an excellent bloomer. Price, 35 cents.

SEEDLING PEONIES

You do not know what colored flower you will get, but every one will be handsome; many of them will be single and resemble huge butterflies of white, red, pink, crimson, etc., while others will be double. Be sure and try some of these seedlings. Do not ask me to send any special color, as no one knows the color until they bloom. Price, 15 cents each; two for 25 cents; five for 50 cents; twelve for \$1.00.

TREE PEONIES

This is a remarkable species, developed from Peony Mouton, a native of China and Japan. In habit of growth it is not unlike a deciduous shrub—the growths are short and stocky, the plant eventually attaining a height of four or more feet and of large circumference; the foliage is quite handsome, and the immense flowers, which usually appear some two weeks ahead of the herbaceous class, are most remarkable for their immense size and gorgeous colorings. Splendid for grouping or for specimen plants on lawns. While a hardy plant, it will be found desirable to give it some protection in very cold latitudes. All shoots springing from the base should be rubbed off; any color you desire. Price, 75 cents; two for \$1.25.

Remember that so long as I can ship Peonies safely during the spring months I will do so; after it becomes too late I will file your order for them and ship in the fall time.

CENTURY DAHLIAS

This is an entirely new race of single Dahlias. I consider today that the new Century Dahlias occupy first place where beauty of coloring and artistic effect is desired. Owing to their immense size, long stems, graceful carriage, combined with their purity of color, or the blending of colors, shades and tints, they entirely outclass all other Dahlias for cut flowers. HARDY PERENNIAL PHLOX

This is one of the most easily grown hardy perennials, and the large number of beautiful varieties now offered makes it especially desirable. These noble flowers are not only beautiful as individuals, but the cheerful appearance of our gardens during the summer and autumn months is much indebted to them. They succeed in any position or soil, and can be used to advantage either as single specimens in the mixed border or as large clumps or beds on the lawn. To produce the best results, however, they should have a rich, deep and rather moist soil, and let each clump have a space of from two to three feet in which to develop. They will continue to thrive for several years with little attention, as is attested by the fine clumps about old homesteads. The ease with which they are cultivated, their entire hardiness and the extended time of blooming, combined with the varied and beautiful coloring, make them especially valuable for garden planting. The Perennial Phlox usually commence to bloom in early summer, and are brilliant with color until after several frosts have come. They are admirably adapted for cemetery planting, also for a low hedge or screen to hide old fences and unsightly objects. Plant Phlox; they take care of themselves and get better each year. Price, 10 cents each, three for 25 cents, seven for 50 cents, fifteen for \$1.00

ALHAMBRA—Rich mauve; distinct.

DUGUESCLIN—Rosy-lilac, distinctly rayed with lighter halo.
ESCLARMONDE—Clear rosy-lilac, deeper eye, exquisitely rayed and shaded.
ECLAIREUR—Clear rosy-magenta, with large lighter halo; large florets and magnificent bedder.

The Entire Set of Thirty-One Distinct and Beautiful Varieties of Hardy Phlox for \$2.00.

BEAUTIFUL FERNS

FOR HOUSE CULTURE

New Fern, "Teddy Junior."

"TEDDY JUNIOR," the Fern for Every Household—This magnificent Fern has never before been offered for sale by any florist or catalogue firm. It is a sport from the now famous Roosevelt Fern, and while its habit of growth is to produce a shorter frond, it retains all the valuable characteristics of the parent plant. The fronds are broad and beautifully tapered from base to tip; they droop just enough to make a shapely, graceful plant, permitting it to finish with a fine full center and perfect symmetrical spread. The pinnae are distinctly undulated, giving the fronds an attractive wavy appearance, which adds materially to their charming decorative effect, and thin, scraggy foliage is never seen in this variety. "Teddy" will produce about four times more fronds than any other Fern ever introduced, finishing with fifty to sixty fronds in a four-inch pot, while twelve to fifteen is the average number other varieties will produce in the same size pot. It is such a compact, vigorous grower that it will thrive under most adverse conditions, making an exceptionally rapid growth and producing a plant of rare beauty and perfection in the average dwelling house without special care or attention. Owing to its habit of producing the great quantity of massive foliage in small pots, this Fern makes the finest pedestal plant ever produced, and will prove indispensable for decorating dining room or library tables and numerous other places in the home where limited space will not permit using large pots or varieties with longer fronds. **Fine young plants, 40 cents each, three for \$1.00. Strong plants, 75 cents each, two for \$1.25. Extra strong plants, \$1.00 each.**

THE NEW CRESTED FERN (*Nephrolepis Scholzei*.) This is the great Crested Fern that has set all the Fern lovers to talking. Everyone admires it and sings its praises. The growth is bushy and compact, each pinna is crested, giving it a distinct and unique appearance. This Fern is a model of beauty. **Fine young plants, 30 cents.**

THE FLUFFY RUFFLES FERN (*Nephrolepis Superbissima*.) This new Fern is quite different from all other Ferns. Its distinguishing characteristics are its dark green foliage, darker than any other Fern, its dense growth being much more compact, and its irregular shaped fronds which gives it the name of "Fluffy Ruffles Fern." The fronds are very heavily imbricated, the pinnae overlapping and are so formed as to resemble miniature Ferns, giving it the appearance of a Fern within a Fern. The plant is very sturdy in its habit and the fronds firm and rigid, never break down, so that it will stand more knocking around than any other Fern. The possessor of this new Fern has a distinct and different plant from all the other Ferns. It is a plant that needs to be seen to have its great value and sterling qualities appreciated. **Fine young plants, 30 cents each. Strong plants, 65 cents each.**

THE OLD ORIGINAL SWORD FERN (*Nephrolepis Exaltata*.) This is the parent Sword Fern from which all the *Nephrolepis* in commerce sprung. The fronds are narrow, and grow upright, making it a most useful variety on this account for centers of vases, for which purpose it is used by the florists by the thousand. **Fine young plants, 25 cents.**

THE TARRYTOWN FERN (*Nephrolepis Piersonii*.) An entirely new form of the Boston Fern. The pinnae subdivide, making miniature fronds which are superimposed on the main fronds, looking as if two or even three were condensed in one, giving the plant a graceful, feathery and plummy effect. This plant took the only gold medal ever awarded by the Society of American Florists. **Fine young plants, 30 cents.**

There are no plants grown that are more desirable for the house than these fine decorative Ferns. They are easily grown, free from insects and disease, and thrive well in the ordinary living-room. See that the plants have plenty of drainage and are kept well watered; never let dry out for any length of time.

ROOSEVELT (*Nephrolepis Roosevelt*.) (New.) The Grandest and Greatest of all Ferns. There is absolutely no Fern to compare with this charming new variety. It is a wonder. **Fine young plants, 35 cents. Strong plants, 75 cents; extra strong plants, \$1.25.**

Fronds of the New Roosevelt Fern, showing wavy effect.

PHILADELPHIA LACE FERN (*Nephrolepis Elegantissima*.) This without question stands in a class by itself among Ferns. It belongs to the true *Ostrich Plume* type of Fern, and has this decided advantage over the others of never reverting to the Boston type. Its fronds are long, graceful and airy, resembling delicate lace. A most remarkable variety, a perfect jewel amongst Ferns. Do not fail to get this. **Fine young plants, 25 cents. Strong plants, 65 cents. Extra strong plants, \$1.00.**

THE NEWPORT FERN (*Nephrolepis Scottii*.) This Fern is all the rage at fashionable Newport. Identical with the Boston Fern, except it is smaller in all of its parts, and more compact, and will make more fronds in a given length of time. The fronds are lighter green than any of the *Nephrolepis*. The plants are never straggly, always making a shapely plant. **Fine young plants, 25 cents. Strong plants, 60 cents.**

The Wonderful New Fern BABY'S BREATH (*Nephrolepis Goodii*.) This has the finest foliage of all the Ferns. It is so delicate that a lady on seeing it exclaimed, "Call it the Baby's Breath Fern, as it is so dainty in texture that a baby's breath would set its fluffy foliage in motion." It gives the impression of fine lace work, and has been named in the East the Philadelphia Lace Fern. It is a much finer Fern than *Nephrolepis Amerpohlii*. Whatever name you call it by, it is a beauty. My reputation for it that no Fern in existence can compare with it in fineness. **Fine young plants, 35 cents. Strong plants, 75 cents each.**

THE OSTRICH PLUME FERN (*Nephrolepis Whitmanii*.) A great Fern. In fact, it is a plant that appeals to everyone, and on that account will prove a much more valuable and profitable plant than the Boston Fern, which has had the most phenomenal sale of any decorative plant that has ever been grown, but which cannot be compared to the *Ostrich Fern* for beauty and general effectiveness. Everyone who has seen it is charmed with it. As someone has expressed it, "There is nothing like the *Ostrich Plume Fern* in cultivation. In decorative effect it so far outdistances the original variety that there is positively no comparison to be made. We consider it the most valuable novelty that has been introduced in many, many years." It has taken gold medals wherever shown. **Fine young plants, 25 cents each. Strong plants, 65 cents each. Extra strong plants, \$1.00.**

BEAUTIFUL FERNS--Concluded

BOSTON OR FOUNTAIN FERN (*Nephrolepis Exaltata Bostoniensis*.) In the vicinity of Boston no other plant is so extensively used as this graceful *Nephrolepis*, which differs from the ordinary Sword Fern in having much longer fronds, which frequently attain a length of six feet. These arch and droop over very gracefully, on account of which it is frequently called the Fountain Fern. This drooping habit makes it an excellent plant to grow as a single specimen on a table or pedestal. This Fern should not be compared to the Ostrich Plume Fern, as they are of an entirely different growth; both have their place and both are beautiful and desirable. Fine young plants, 20 cents. Strong plants, 50 cents. Extra strong plants, \$1.00.

THE FISH TAIL FERN (*Nephrolepis Davallioides Furcans*.) This is a grand Fern, entirely distinct from any of the other varieties of *Nephrolepis*. Throughout the South and especially at New Orleans this Fern takes precedence over all others. The ends of each pinna are so formed as to resemble a fish tail, giving the fronds a crested appearance, very effective. It grows into the most shapely plant of any of the *Nephrolepis*. Grand for house culture. Fine young plants, 35 cents each.

THE SILVER FERN (*Pteris Argyrea*.) This is called the Silver Fern from the broad line of silvery-white that runs through each frond. A most beautiful Fern. Price, 20c.

THE SHAKING FERN (*Pteris Tremula*.) The foliage of this variety is fine and graceful, and is much sought after. It grows rapidly and soon makes a handsome plant. Price, 20c.

PANSY GERANIUM

A WONDERFUL PLANT

This new and beautiful Pansy Geranium is of the easiest growth, dwarf in habit, and literally covered with flowers all the time, and as it requires little or no attention, it is invaluable as a window plant. The coloring and markings of the flowers are most extraordinary—light pink, white, dark purple, black, etc., almost rivaling the Pansy in uniqueness of flower. It is this combination of coloring which obtained for it the popular name of Pansy Geranium. Strong plants, ready to bloom, 35 cents each.

SWEET-SCENTED GERANIUMS

APPLE-SCENTED GERANIUM—This has the true ripe apple-scented foliage. A great favorite. Price, 25 cents.

ROSE—The famous sweet rose-scented Geranium; very fragrant. Price, 10 cents.

CARNATION PINKS The Divine Flower

For beauty of flower and color, ease of culture, certainty and freedom of bloom, together with exquisite fragrance, this is well called the "Divine Flower." Plants in the open ground or in pots quickly make large specimens, and when brought indoors in the fall produce an abundance of flowers throughout the entire winter. Carnation blooms are expensive; don't buy them—grow them yourself. Pinch the plant back frequently during the summer season. In the fall bring indoors, place in a four or five-inch pot, keep in a temperature of forty to fifty degrees at night, and they will yield an immense number of flowers with splendid stems, as fine as those sold by florists. If not pinched in they will bloom profusely during the summer. I offer the finest varieties in existence. Your order is incomplete without some Carnations.

EXCELSIOR COLLECTION OF CHOICEST CARNATIONS

Price, 10 cents each; three for 25 cents; seven for 50 cents; set of nine Excelsior Carnations, postpaid, for 65 cents.

ABUNDANCE—Flowers very large and perfect in form; color a bright rosy-pink, with salmon shading when the flowers are fully expanded. A very healthy grower and remarkably free bloomer. Plant dwarf, growing about fourteen inches high. This I consider one of the best pink varieties ever offered, and an excellent variety for pot culture.

BON TON—This is by far the darkest Carnation ever seen, and at the same time the most abundant bloomer. Brilliant dark red, shaded with richest maroon, fringed petals, nearly every flower being on a long stem. This variety surpasses in richness of color the most perfect Jacqueminot Roses.

DELLA FOX—Its color is almost indescribable. Of a rosy-orange shade, striped and flaked with carmine, never bursts its calyx, is very free and early flowering, and can always be cut with a long stem, a most desirable feature in the colored Carnation nowadays.

ESTELLE—One of the most fragrant Carnations I have seen. Color a clear, bright, glowing scarlet; a most continuous bloomer and distinct in color from any other sort offered. Greatly admired by all who have seen it growing here.

GENEVIEVE LORD—As large as the largest light pink ever offered. A few blooms last season measured nearly four inches. It has taken first prizes wherever offered.

JUBLEE—Very dwarf, and of a nice, bushy growth, forcing very long flower stems, each individual flower possessing a stem varying from three to eight inches in length. It has perfectly formed flowers; color a rich, bright dazzling scarlet. I unhesitatingly recommend this sort.

MORNING GLORY—This variety has been greatly admired wherever it has been seen for its desirable color, being a beautiful light pink satin color; flowers large size and very freely produced. Plant of grand habit and vigorous growth. It is a superb variety.

WHITCOMB RILEY—The ground color is the faintest blush, lightly penciled in soft pink. The bloom is duffy in appearance, exquisitely beautiful in form. One of the grandest of all Carnations.

WHITE CLOUD—This is the largest white Carnation in cultivation—often measures four inches in diameter. The flowers are of the purest white, with petals of great substance, making it one of the very best.

“Novelty” Collec- tion of Choice New **Monthly Carnations** “The Divine Flower”

Price, 10 cents each; any three of your selection for 25 cents. This Novelty Collection of seven Monthly ever-blooming Carnation Pinks, 50 cents.

ADONIS—Another grand new variety so distinct that it stands alone. Awarded the Lawson Gold Medal, also the S. A. F. Medal at the Carnation Society's convention. The flowers measure three and one-half inches when well grown. Long, strong stems, two to three feet. A healthy, vigorous grower. But its color—a glowing scarlet-crimson, intense and fiery with its rich ox-blood shadings, far and away beyond all other Carnations.

ENCHANTRESS—The Great \$10,000 Beauty. The great forward stride in Carnations is made more manifest in this than in any other since the advent of the Mrs. Thomas W. Lawson. It was raised by the same grower, and he pronounces Enchantress superior to it. The flowers are three and one-half to four inches across when well grown. The color is a superb shade of rosy blush-pink.

GAIETY—Color pure white, with a few narrow pink pencilings about the edge and through the flower. Size large and full, form very round and symmetrical. One of the best producers, beginning to bloom early and continuing throughout the season without intermission.

HER MAJESTY—Purity of color fairly glistens all over this flower. Form is simply perfect, size larger than any other white, stem the strongest and about thirty inches long. It is bound to become the standard white for both winter and summer blooming, as it will start blooming July 1st and continue until the same time a year later.

LADY BOUNTIFUL—Largest flowers of the purest immaculate white; large-sized blooms. Valuable for garden planting and for pot culture. Very sweetly scented with that delightful old-fashioned clove fragrance.

New Fancy Carnation, PROSPERITY—This is the largest Carnation ever offered. It is a wonderfully free bloomer, considering the monster size the flowers attain. White, overlaid with pink, in mottles reminding one of the beautiful tints seen in Azaleas.

The Sensational Carnation, MRS. THOS. W. LAWSON—The grandest pink Carnation, a true exhibition variety. Bloom large and spreading, stem stiff; a good grower. All newcomers will have to meet comparison with the Lawson. Very free for so large a flower. The Lawson is the queen of a class all her own, just as American Beauty is among Roses. No grower can afford to be without it. Thirty thousand dollars was paid for this variety; highest price ever paid for any flower.

MRS. PERRIN—Still the brightest of all the pinks. Beautifully formed.

MODESTO—Still the best exhibition yellow. This Chrysanthemum has no faults.

MISS MINNIE BAILEY—One of the grandest all-pink Chrysanthemums. In finish it is exquisite, showing not the slightest trace of coarseness.

MRS. O. P. BASSETT—A light lemon-yellow of the largest size; grand.

MISS ALICE BYRON—Fine, substantial white, very lasting; good cut flower.

MAJOR BONAFFON—One of the very best deep golden-yellow Chrysanthemums; beautiful flower, both in form and color; incurved.

Early Flowering Chrysanthemums

So many persons have asked for varieties of Chrysanthemums that would flower before frost comes in the fall. I here offer the very best early "mums," so you can see them flower in the garden. Price, 20 cents each; the five for 85 cents.

CARRIE—Brightest yellow; large and fine.

OCTOBER FROST—Purest snow-white; fairly glistens in its purity.

Ostrich Plume Chrysanthemums

Below I offer a grand collection of these Chrysanthemums. The term "Ostrich Plume" is applied to this type on account of the feathery growth with which the petals are thickly covered.

PRICE 15 CENTS EACH

LOUIS BOEHMER—A most beautiful shade of lavender-pink.

AUDREY (New)—Pure snow-white, ostrich plume. Elegant.

HAIRY WONDER—Enormous terra-cotta, broad, spreading Japanese variety, with extremely wide cupping and incurving petals, which are covered with glandular hairs. Reported as the largest and best hairy ever exhibited. Habit, stem and foliage perfect.

Hardy Pompon Chrysanthemums

These beautiful varieties are again very popular for outdoor bedding purposes. They are quite hardy, and with but a slight covering of leaves or coarse stable litter during the winter will take care of themselves after once planted, and produce an abundant, almost lavish, profusion of bloom; and the plants lend a coloration to the garden just at a time when other plants have been destroyed by frost and are looking their worst. Frost does not materially affect the flowering, and it will frequently happen that an armful of flowers can be cut after a sharp frost.

DINIZULA—Rosy-lake; very fine.

ELEGANTA—Deep pink, tipped and edged white.

GOLDFINCH—Magnificent; gold, shaded crimson; extra.

GOLDEN FLEECE—Large, bright lemon-yellow.

Price, 15 cents each.

KADAR—Clear magenta; extra fine.

MRS. VINCENT—Large; deep purplish-rose.

RHODA—Bronzy-pink; fine.

TENDER PLANTS Plants in This List will Not stand frost

ACALYPHAS

ACALYPHA SANDERII—The most sensational new plant introduced for years, and one of the most striking flowering ornamental plants. Strong, free growth, with large, dark green leaves from each axil of which rope-like spikes of velvety-crimson flowers from one to two feet long and nearly one inch thick are gracefully suspended; useful as a pot plant.

ACALYPHA TRICOLOR—A grand bedding plant where fine foliage effect is desired. The foliage is bronze, mottled with pink; very rich.

ACALYPHA TRIUMPHANS—This is also a grand plant for beds. The foliage is red, marbled, streaked and mottled with green, yellow and pink; extremely effective. Price, 15 cents. Large plants, 25 cents each.

SPECIAL OFFER—The three Acalyphas for 35 cents.

ARAUCARIA EXCELSA

NORFOLK ISLAND PINE—

Various names have been suggested for this grand plant to properly convey to the mind the appearance of it. Some have called it the "Christmas Tree Palm," from its resemblance to a Christmas tree; others have called it the "Star Palm," because the leaves are arranged to form a perfect star, but no descriptive name can give an adequate idea of its beauty. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances. Its symmetry of form, grace and beauty of foliage are unequaled in the vegetable kingdom. It is easily grown in the house, and is highly ornamental. It requires the same culture as the Palm. Indeed, as a decorative plant for the house, this is one of the handsomest and most serviceable plants in my collection. Strong plants, \$1.00 each; extra fine specimens \$1.50 each.

Araucaria Excelsa.

Asparagus Plumosus Nanus

THE CLIMBING LACE FERN—This graceful climber has to a great extent taken the place of the once popular Smilax in all fine decorations. It possesses the advantage of being much more graceful—its foliage being finer than that of the most delicate Fern—and will last for weeks after being cut, the whole plant being of a bright, cheerful green. Excellent house plant, succeeding under almost any conditions; by pinching back may be grown as a plant. Price, 10 cents each for fine plants; large, strong plants, 35 cents each.

ASPARAGUS SPRENGERI

THE EMERALD FEATHER—A most desirable species, especially useful to grow as a pot plant for decorative purposes or for planting in baskets or vases. The fronds are frequently four feet long, of a rich shade of green, and most useful for cutting, retaining their freshness for weeks after being cut. It will make an excellent house plant, as it withstands dry atmosphere and will succeed in almost any situation. Price, 10 cents each, three for 25 cents; strong plants, 25 cents.

ASPARAGUS HATCHERII

It would hardly be possible to praise this new type too much. It is of very rapid growth. The fronds are set closer on the stems than on Plumosus Nanus. Has already made a name for itself. Price, 20 cents.

Begonias are fine for Pot Culture Indoors, and for the Outdoor Plant stand or planted in the ground in shady spots. Price, 10 cents each, except where noted; the set of nineteen, costing \$1.45, for \$1.15.

ALBA PICTA—Long, pointed, slender leaves, thickly spotted with silvery-white. Foliage small and elegant.

ALBA PERFECTA GRANDIFLORA—I doubt if there is a white-flowered variety that equals it. The foliage resembles Rubra in shape, but it is lighter green, while the flower panicles are much handsomer. It is a pure white flowering Begonia of much merit.

ARGENTEA GUTTATA—It has purple-bronze leaves, oblong in shape, with silvery markings, and is in every way a most beautiful Begonia. Produces white flowers in bunches on ends of growth stems. Good for house culture.

The Wonderful New Flowering Begonia CORALLINE LUCERNE—This new Begonia has simply taken everybody who has seen it by storm. There was not a single lady or florist who visited my greenhouses the past spring that did not purchase this Begonia after they had seen it in flower. It certainly is a wonder. The blooms last from a month to six weeks, and are borne in immense clusters almost hiding the plant. The color is bright coral-red, changing to a delicate pink. It is past the power of speech to describe it. A wonder. Fine plants, 25 cents; strong plants, 40 cents; extra strong plants, 60 cents each.

DECORUS—This is the white-flowering Rubra. Very similar to it, but with white flowers.

FOLIOSA—A beautiful fine foliage variety; pink flowers.

FUCHSIOIDES COCCINNEA—This beautiful plant makes handsome specimens, with its graceful branches and pendulous flowers of bright scarlet. Very floriferous.

GRACILIS LUMINOSA—A magnificent new specimen of the Semperflorens type, exceptionally sturdy and vigorous, and unquestionably one of the choicest bedding sorts in existence. Its flowers are large, perfect and plentiful, and never out of bloom. Color, the brightest scarlet. Price, 15 cents.

MRS. TOWNSEND—Here I have a grand new Begonia with broad metallic leaves; under side bronze-red. Flowers in large panicles of a beautiful pink color. A grand Begonia. Price, 15 cents.

MARGUERITE—Leaves a bronzy-green, somewhat resembling Metallica, but growing in more bushy form, and easier to handle when grown in pots. Large trusses of light rose-colored flowers freely produced.

New Trailing Begonia, MARJORIE DAW—This Begonia is distinct from all other Begonias, for instead of growing upright it droops. It bears great clusters of large, shining pink flowers that droop from long stems, making a beautiful sight. For single specimen pot plants or for baskets and vases "Marjorie Daw" is proving one of the best plant introductions in years. Price, 20 cents each.

PICTA ROSEA—A wonderfully free growing Begonia of sterling worth and great beauty. The plant is very compact in growth, forming a dense, well proportioned bush with rich green foliage, spotted with silver. The flower is a rosy-flesh color, shaded with a silvery-pink and enlivened with dense clusters of yellow anthers. One of the most wonderful flowering Begonias within my knowledge. It blooms continually. Price, 15 cents.

PRESIDENT CARNOT—The leaf is of silky texture, and is beautifully spotted with silver; under side plush-red. Very strong, free-growing variety, that will succeed with any ordinary care, growing rapidly and sending out quantities of beautiful coral-red flowers in large pendent panicles. Price, 15 cents.

RUBRA—Has strong, slender branches, gracefully drooping under heavy waxen leaves and pendent panicles of coral-colored flowers as large as a hand. Medium-sized plants are frequently seen with more than twenty such panicles at a time. Price, 15 cents.

ROBUSTA—This is one of the most peculiar Begonias grown. The stock, stem and under side of the leaf are Indian-red. The upper side of the leaf glossy olive-green. The flower is composed of two wide and two narrow petals, the wide ones

BEGONIA REX, or King of the Begonias—Price, 25 cents, the three for 60 cents.

BEAUTY OF RICHMOND—Dark green crown's feet center, with broad band of silver edged darker with silver dot.

LESODSII—Large heart of green surrounded by large silvery spaces, bordered with green.

MAGNIFICA—Leaves of immense size. Color a rich dark chocolate-brown, tinted dark green; very showy.

BEGONIAS

Begonias are fine to plant on the north side of the house or other building, or in front of porch where they get shade. The foliage, as well as the flowers, are extremely ornamental, some being spotted and veined to give a particular effect that is quite striking. Begonias planted with Crotons give a wonderful foliage effect, and this is heightened with their lovely showy flowers.

TENDER PLANTS—Continued

Brugmansia, or Angel's Trumpet

Here is a plant for the masses. It grows easily, blooms freely, and the flower is something to be proud of. The Brugmansia blooms indoors in winter and in the garden in summer. The plant has large, tropical leaves, with blooms eight inches long by six inches wide at the mouth, resembling a trumpet, hence the name, "Angel's Trumpet." Pure white in color and as fragrant as a Jasmine. Blooming plants, 25 cents each. Plants ready to bloom, 50 cents.

Brugmansia, or Angel's Trumpet.

COLEUS

I have a collection of thirty kinds of the most distinct sorts. Leave the selection of varieties to me, as it is hard to describe the various tints.

Price, 5 cents each, any six for 25 cents, any twelve for 50 cents; twenty-five distinct varieties for \$1.00.

These are all good bedders, standing the hot sun without losing their color. Price of Coleus by the hundred when sent by express, \$3.00, you to pay the expressage.

New Giant Fancy-Leaved Coleus, Christmas Gem.

New Giant Coleus CHRISTMAS GEM

(Brilliantly, or Dr. Ross.)

Leaves immense, eight to twelve inches long, looks like a Rex Begonia, and just as beautiful. Cannot be excelled as a pot plant. The name aptly describes the appearance of this variety, which belongs to the giant-leaved section; of strong, vigorous habit, growing from two to three feet high, with leaves often nine to ten inches long, which are of bright carmine, shading off to a deep maroon, the margin being yellow and green, the whole leaf having a rich velvety luster. Price, 20 cents each.

CROTONS

Nothing can excel the beauty and richness of coloring that is found in this class of plants. They are beautiful pot plants for the conservatory, making very handsome specimens for decorative and exhibition purposes. They are used extensively as bedding plants, for which purpose they are exceptionally well adapted. They should be planted in full sun, in a position where they can be more liberally supplied with water, which develops the most wonderful coloring in the foliage. Undoubtedly the most interesting and showiest bedding in our Springfield yards the past few years was made with this plant. They are fine for basket or vase work. Where I used to sell dozens I now ship thousands. Leave the selection of varieties to me. I can supply twelve choice kinds. Fine plants, 12 cents each, three for 30 cents, \$1.00 per dozen.

CAMELLIA JAPONICA

Camellia is considered the queen flower of the South, and is called the "Japonica." During the month of May immense trees can be seen in full bloom, making the most gorgeous sights to behold. Their dark, shiny leaves contrast beautifully with the waxy-like blooms, which come in pink, white, rose, carmine and variegated shades. No garden is complete without them, as they are also quite hardy in the Southern States and require no protection or care. They are called the Royal Family of greenhouse plants. Time of blooming is in winter and in early spring. Requires a moderate and uniform temperature, with as little artificial heat as possible. When set with flower buds great care must be taken in watering—when left too dry the buds are sure to drop. I offer splendid plants, bushy, well-grown specimens, and all in splendid health. The varieties are the best extant, the pick of a continental collection. Plants two to two and one-half feet high, \$1.00 each; the set of twelve distinct kinds for \$10.00; any four for \$3.75. All my Camellias are double-flowered. I can supply fifteen sorts other than the twelve named at same price, all fine varieties.

Nothing is so airy and graceful as these blossoms of large white petals showing a yellow disc. Price, 10 cents each.

MME. E. MOUILLERE—This has been the favorite white variety in the New York market this year, very free flowering, of good size and form. Awarded silver medal at the National Flower Show at Boston last year. A great favorite with English growers, one London grower known to me handling over thirty thousand of this variety alone. Price, 35 cents; large size, 65 cents.

Mlle. RENEE GAILLARD—Very large panicles of milky-white, irregularly dentated flowers, which is certain to become popular; it is entirely distinct. One of the best growers of Hydrangeas says that this variety should really have been awarded the Silver Medal given to Mme. Emile Mouillere last year as the best white. By far the best of all Heliotropes.

FLORENCE NIGHTINGALE—Best free-flowering light lavender.

CHIEFTAIN—Color deepest violet-purple, large white eye; very fragrant; the plant is of vigorous habit; very floriferous.

The above four Heliotropes for 35 cents.

New Pink Hibiscus "Peachblow"

This is a sport from the double red Hibiscus *Rosea Sinensis*.

The flowers are double and from four to five inches in diameter, of a charming, rich, clear pink color, with small, deep crimson center. It is one of the freest flowering plant novelties recently offered. The color is an entirely new and beautiful shade, and it blooms abundantly and continuously during the summer and fall months. Large plants two and three years old make a magnificent show. It will give general satisfaction to those who grow it, either in pots or planted out in the garden. It blooms well in the winter in the greenhouse or in any sunny window. Price, 15 cents each; strong, fine plants, 30 cents each.

CHINESE HIBISCUS

Price, 10 cents each, any three for 25 cents. I have large plants of Hibiscus, ready to bloom, for 25 cents each. These are handsome plants.

SINENSIS GIGANTEUS—This is a plant for house cultivation during winter or summer, or for planting outside during summer. It blooms at all times of the year. The plants branch freely and flower profusely, commencing to bloom when not more than a foot high. As a specimen plant for large pots it has an equal only in the *Brugmansia*. Its flowers are of enormous size, often eight to ten inches across, opening flat, and of such vivid crimson-scarlet color that they can be seen from a long distance like a flaming torch. They can be wintered in the cellar or pit with perfect safety, and if one does not care to grow them all winter, one should have one or two for summer display.

GRANDIFLORUS—Rich, glossy cut-leaved foliage, literally covering the plant with scarlet-crimson flowers.

Impatiens Sultani.

Lantanas, or Shrubby Verbenas

The brilliant colors, robust growth and profuse blooming habit of the Lantana render it one of the finest bedding plants grown. The flowers embrace all the most delicate shades of orange, sulphur, creamy-white, etc., changing from one distinct color to another as they increase in age and development. The varieties I have give a wide range of color, and include the most distinct and profuse kinds; fine for baskets and vases or porch boxes. Price, 8 cents each, three for 25 cents, twelve for 75 cents.

WEEPING LANTANAS

A New Weeping Plant of Great Beauty.

One of the grandest basket plants grown. The plant has a most graceful, drooping habit, grows very rapidly, and blooms continuously summer and winter, producing large clusters of the most delicate lilac or rosy-pink; foliage a beautiful dark green. A single plant on August 1st this past summer had five hundred and ninety clusters of flowers on it. The same plant December 1st had three hundred and fifty clusters of flowers on, which proves it one of the most persistent bloomers, and it does equally well winter or summer. I know of nothing of recent introduction that is so easily grown and gives so much pleasure and satisfaction as this beautiful Lantana. Price, 10 cents each, three for 25 cents.

The Wonderful New Lemon

PONDEROSA

My New Ponderosa Lemon is what I claim for it. Largest freest blooming, fruiting and most delicious of all Lemons.

Nothing that has ever been brought to my notice in the plant line has caused half the commotion that this wonderful Lemon has. It is a true ever-bearing variety. On a plant six feet high no less than eighty-nine of the ponderous Lemons were growing at one time. It was a beautiful sight to see. The tree was blooming, and at the same time had fruit in all stages of development, from the size of a pea up to the ripe fruit, showing it to be a true ever-bearer. Fruit has been taken from this tree weighing over four pounds. The Lemons have very thin rind for such large fruit. It is the juiciest of all Lemons, makes delicious lemonade, and for culinary purposes cannot be excelled. I have the entire stock of this ponderous Lemon, and guarantee the trees to produce the same large fruit. No budding or grafting necessary. Ponderosa Lemon is sure to become popular when it is known. It fruits when quite small, and makes a lovely house plant. Everybody can grow his own lemons; it will fruit freely each year. Thrifty young plants, 10 cents each, three for 25 cents; strong one-year-old plants, many of which will fruit this year, 25 cents each; strong two-year-old plants, 50 cents each; extra strong, handsome plants, to bloom and fruit at once, \$1.00 to \$1.50 each, according to size.

SWEET GERMAN MYRTLE

The Jew or Bride's Myrtle

This is the handsome, upright, evergreen plant, suitable for pot culture in the house, has small glossy green leaves that are very fragrant. This is scarce and rare. Fine plants, 25 cents each; three for 50 cents.

The Beautiful Dwarf Ornamental OTAHEITE ORANGE

This valuable and distinct variety of the Orange family is a dwarf, compact grower, with glossy deep green foliage, which has a decided odor of the Orange Tree of Florida, and is exceedingly floriferous, producing a wonderful profusion of pure white flowers of the most delicious fragrance, identical with the much-sought-for blooms of the Southern Orange groves. Otaheite fruits immediately after flowering, bearing fruit about one-half the size of the ordinary Orange, retaining in a marked degree their sweetness. This unique Orange cannot be equaled as a winter-blooming pot plant for house culture. Requires but little sunlight, and flowers and fruits when but twelve to fifteen inches high. As a pot plant this lovely dwarf Orange is one of the most novel and beautiful that can be grown. With a couple of plants of it you can have an abundance of the far-famed delicate and fragrant Orange blossoms. I have grown a large stock of clean, vigorous plants of this beautiful Orange that will bloom and fruit at once. I commend it to my friends as a novelty of sterling worth and merit. Native of Mexico. A common plant of the tropics, and well known in Northern hothouses for the great scarlet bracts surrounding its flowers, produced in winter, and often remaining bright for months at a time. Does well anywhere in Florida, outdoors, and anywhere in the North as a house plant, growing to large size. It is a splendid object from Thanksgiving to March 1. If cut by frost, it sprouts up readily. Price, 20 cents each.

New Ever - Blooming Baby Primrose

This is the freest-blooming plant that I know of, blooming continuously throughout the entire season. Plants in very small pots have from fifteen to twenty sprays of lovely light pink flowers on stems ten to twelve inches high at one time, and plants in four-inch pots often have from twenty-five to fifty at one time, lasting in bloom fully four weeks without fading and continually sending new sprays all over the plant, making it one of the most desirable plants for the house ever introduced. It is a very rapid grower, and the easiest grown of all the Primrose family. Very desirable. Price, 8 cents each.

RUELLIA MOKOYANA

SPLENDENS ALBA—A pure white variety of Splendens; identical in every respect except in color.

SPLENDENS VARIEGATA—White and red flowers; very evenly striped.

New Dwarf Scarlet Salvia, MRS. PAGE—This variety simply hides the foliage, and is a sheet of brightest scarlet.

New Salvia, SILVERSPOT—The distinctive feature of this splendid novelty is its strikingly handsome spotted foliage. The leaves are rich, soft dark green, with light sulphur or cream-colored spots of various sizes liberally sprinkled over them. The intense bright scarlet flowers are very large; the plants are of neat, compact habit.

Sansevieria Zeylanica, Zebra Plant

A beautiful plant, specially adapted for the decoration of drawing rooms and halls, as it stands dust and drought with impunity and requires scarcely any water. The leaves are beautifully striped crosswise, with broad white variegations on a green ground. It is a rare and beautiful plant, which should be abundantly grown for positions out of the reach of sunshine, where other plants will not thrive. It can be placed in any position in any room and do well. It has a singular beauty for decorative purposes which other plants do not possess, and it is useful both in winter and summer. For vases and baskets it is a fine centerpiece, and grows splendidly out of doors during summer. Fine plants, 15 cents each; two for 25 cents.

Tritoma Pfitzerii.

Ever-Blooming Tritoma Pfitzerii

The greatest bedding plant ever introduced, surpassing the finest Cannas for attractiveness and brilliancy, equal to the Gladiolus as a cut flower, and blooms incessantly from June until November. Plants perfectly hardy in open ground all winter south of Philadelphia. Further north they must be protected or wintered in the cellar like the ordinary Tritoma. Just bury the roots in sand; nothing more is required. Should be planted out very early in the spring, and will commence growth and bloom at once, growing larger and finer every day. Plants show six to twenty grand flower stalks all the time, each holding at a height of three to four feet a cluster of flame colored flowers of indescribable beauty and brilliancy. Each cluster keeps perfect several weeks, and when it fades several more are ready to take its place. Fall frosts do not kill it or stop its blooming, and it is as brilliant as ever long after all other garden flowers have been killed. For cutting it is unsurpassed, and the beautiful long spikes keep several weeks in water. Strong plants that will bloom the first summer, 15 cents each; two for 25 cents.

TENDER PLANTS--Concluded.

Beautiful and Fragrant Violets

Of all the delightful perfumes that of the Sweet Violets is the most delicate and pleasing. If grown in the house for winter flowers, they should be kept at a low temperature, as they will not bloom freely where it is too warm. If left in the open ground during winter, protect with a covering of leaves. **Double White Perpetual-Flowering Violet SWANLEY WHITE, or Queen of Fragrance**—Of all the white Violets, this is the best, either for pot culture in the house or bedded out. In pots it grows luxuriantly and is loaded with flowers. It is not an uncommon sight to see as many as fifty large flowers open at once, presenting a beautiful sight, their delicious perfume filling a whole room. **Price, 10 cents each.**

LADY HUME CAMPBELL—A true ever bloomer. This is one of the finest of all double blue Violets. It is simply wonderful the number of beautiful flowers it produces. In color it is a shade of the richest intense blue. It is a charming contrast with the white variety. **Price, 10 cents.**

New Imperial or Parma Violet

This is, without question, the largest, richest colored and most highly perfumed of all the Violets. It blooms very freely, literally bending the plant with its lovely blue flowers of the largest size. Its blooming season is longer than any other Violet. **Price, 20 cents each; the three Violets for 35 cents.**

TENDER VINES AND CLIMBERS

These Make a Rapid Growth and Bloom Throughout the Summer, and are very showy.

The Wonderful Giant Moonflower

(IPOMEA MAXIMA.)

A Giant in Growth and Flower, and Wonderfully Fragrant

This grand new Moonflower is a decided improvement over the old well-known variety Ipomea Grandiflora. The flowers are more than twice the size of the old variety, oftentimes measuring from six to seven and one-half inches across, and are produced in such wonderful profusion that they completely cover the vine with a veil of glistening white. Its growth is very rapid when planted in a good rich light soil, nothing to equal it as a tender vine for porch and lattice shading. **Fine plants, 15 cents each.**

New Moonflower, HEAVENLY BLUE—This makes a splendid companion plant to the White Moonflower. It is equally rapid in growth, and a much freer blooming variety than the white one. The blooms come in clusters of five to twelve, and at times almost hide the vines. The flowers are the most heavenly blue, with reddish-purple rays, and six inches across. Nothing is more beautiful. **Price, 10 cents.**

IPOMEA GRANDIFLORA, the True Ever-blooming Moonflower

—It is called the Moonflower from its rare peculiarity of blooming best at night and on dull cloudy days, flowers pure white in great profusion. **Price, 10 cents each.**

ANTIGONON LEPTOPUS—Or the "Queen's Wreath." Produces rose colored flowers in racemes two feet long, beautiful. **Price, 10 cents.**

BOUGAINVILLEA SANDERIANA—The Chinese paper plant. Lovely clear lavender flowers. **Price, 20 cents.**

GERMAN, or PARLOR IVY—A rapid-growing plant, well adapted for training in the parlor. Leaves glossy green and flowers yellow, in clusters. **Price, 8 cents each.**

VINCA MAJOR VARIEGATA—Fine for baskets and vases; green and white foliage. **10 cents; large strong plants, 20 cents.**

TENDER BULBS

Tuberous-Rooted Begonias

Tuberous-Rooted Begonias.

These are among the very handsomest of our summer blooming plants, flowering throughout the season, and as fine and varied in their colors as the Geranium family. They are splendid bedders, delighting in a light soil of woods earth, very old cow manure, and sharp sand. See that the bed is in partial shade, and you will be delighted with the results. In the South, or where they cannot be planted in the shade of a house, a covering of burlap or canvas some six

or eight feet above them, will allow them to come to absolute perfection, but they must have plenty of light and air. Do not allow them to become dry. When through flowering they can be dried off, shaken free of earth, wrapped in cotton until May, when they may be started again.

SINGLE—White, yellow, crimson, rose, scarlet. **Price, 10 cents, three for 25 cents, seven for 50 cents.**

DOUBLE—In the same colors. **Price, 15 cents, three for 40 cents, six for 75 cents.**

CALLA LILIES

Black Calla, ARUM SANCTUM—This is the famous Black Calla; it grows so very easily and produces Calla Lily shaped flowers that in color are coal black. This Lily produces the blackest flower of any plant in existence. It is simply jet black; stock is scarce. **Price, 30 cents each, two for 50 cents.**

Calla Ethiopica, EGYPTIAN LILY—This is the well known Egyptian Lily, or Lily of the Nile, with large white flowers, broad foliage, and it will prosper under very adverse circumstances. **Small plants, to bloom next winter, 10 cents; strong blooming bulbs, 25 cents each.**

Compared with the ordinary Calla, it gives three blooms to one; is snow-white and perfect in form. Blooms on very small plants, though it attains to a very large size with very large flowers. Blooming bulbs, 30 cents each.

The New Godfrey Calla Lily, "Devoniensis."

New Dwarf Calla, LITTLE GEM—This Calla only grows about eighteen inches high, and is the freest blooming of all the Callas. The bloom is pure white. Pan-American Gladioli

GLADIOLI, The Pan-American—My Pan-American mixture is the best in the world, and I want to say to you candidly that you have never seen Gladioli until you see these flowers. This mixture includes all the new strains, such as "Gray's Inglesides," "Burbank's California Selects," "Childsii," and "Groff's Hybrids." They are very tall and erect, often standing four or five feet high, with spikes of bloom over two feet in length. They branch freely, in most cases each stem producing three or four spikes of bloom, and bloom much earlier than ordinary varieties. The flowers are of great substance and gigantic size, frequently seven to nine inches across. The form of both flower and spike is perfection itself, and they last in bloom a long time before fading, owing to their great substance and vigor. But the most remarkable feature is the coloring. Orchids cannot surpass them in varied and delicate shades, markings and blendings. Every color known among Gladioli is represented, and many never before seen, particularly blues, smoky grays and purple blacks, all having beautifully mottled and spotted throats made up of white, crimson, pink, yellow, etc., and in this peculiar network of charming spots and colors lies one of

its special points of unsurpassed beauty. They far outrank all other Gladioli in size of spike, size of bloom, vigor, varied and magnificent coloring and freedom of bloom. Price, 5 cents each, 50 cents per dozen, \$3.00 per hundred by express, you to pay expressage. Cheaper mixture, 3 cents each, two for 5 cents, twelve for 25 cents.

The Wonderful JAPANESE KUDZU VINE—Jack and Bean Stalk Vine. This is the most rapid growing vine that anyone knows of. By measurement it has been known to grow twenty feet in a week. The foliage is large and tropical. It is entirely hardy. Everyone has trouble in getting nursery grown plants of this to grow. I have prepared and offer pot grown plants, the kind that have the crown to the plant and the ball of earth to the roots, and you try to stop them growing and see if you don't run into a snag. This is proving a great forage plant in the South. All kinds of stock prefer it to hay or other coarse feed. Try it. Price, 20 cents each, two for 35 cents.

SOLANUM "PRIDE OF THE GARDEN" (Azureum)—This is, I think, one of the grandest of all hardy vines for the garden. It is a good vigorous grower, bearing its magnificent vermilion-scarlet berries in great profusion. It blooms and sets fruit all the summer long and is a gorgeous sight with its emerald-green foliage, delicate lavender flowers, and bright scarlet berries. It has this one peculiarity; bearing at the same time flowers, green berries and ripe berries; very few plants do this. Fine plants to bloom and fruit this year, 20 cents each.

Hardy BORDER PLANTS and BULBS

Hardy Begonia Evansiana

Think of it! A hardy Begonia, one that stood twenty degrees below zero last winter, and came up and bloomed all summer. Another thing in its favor, it requires shade to grow in, at least partial shade. So many persons write me asking for plants suitable for shady places. Well, Begonia Evansiana fills the bill. It is a wonderful beautiful Begonia, having pendulous flowers in large racemes almost covering the entire plant. Color a sparkling pink that is simply entrancing. Everybody will want a hardy Begonia. It is also fine for pot culture. Price for plants or bulbs to bloom this summer, 25 cents.

HYDRANGEA PANICULATA GRANDIFLORA—A great favorite, and there is nothing finer or more showy, whether for planting in large masses in parks or for single plants on the smallest lawns. Blooms profusely from July until frost, in immense white panicles, tinted with pink and then with brown in the fully matured flower. The plant should be cut back each spring fully one-half of the past season's growth, as the flowers are much finer if the plant is treated in this manner. The flowers are much finer and larger if grown in a good, rich soil, but the plant is so hardy and easily grown that success is almost certain in any kind of soil and in any situation. Young plants, 15 cents, three for 40 cents. Strong flowering plants for immediate effect, two years old, 35 to 50 cents, according to size.

Hydrangea "Hills of Snow."

TREE-SHAPED HYDRANGEAS—These are fine specimen plants four and five years old, trained to tree shape, with about three feet of straight stem and nice shaped heads. Should bloom profusely the first year. Before shipping they are all trimmed the proper length for planting so that they will make a better growth and larger flowers. By express only, 50 cents, three for \$1.25.

HIBISCUS SYRIACUS—(Althea or Rose of Sharon.) Also known as the Hollyhock shrub, belongs to the Mallow family. These are the most beautiful shrubs we have in our collection. The flowers are of large size, very double and full of various brilliant and striking colors. They bloom freely during August and September, when scarcely any other shrub is in bloom. Six varieties: Jean d'Arc, double white; Boule de Feu, double red; Paeoniflorus, double pink; Violet Claire, double violet; Bicolor Hybrida, double variegated; Snowdrift (Totus Albus), single, pure white—this is the best of all Altheas. Twelve to eighteen inches high, 15 cents, two for 25 cents, the set of six for 60 cents; fine plants two feet high, well branched, 20 cents, three for 50 cents, the set of six for 90 cents.

JASMINE PRIMULINUM—(New.) This is a grand new hardy Jasmine of bushy growth; star-shaped yellow flowers. Try this plant. Price, 20 cents.

PHILADELPHUS

Syringa, Mock Orange

These are invaluable shrubs blooming in June. Fine plants, 15 cents; two-year plants, 25 cents.

PHILADELPHUS CORONARIUS—(Garland Syringa.) Pure white flowers highly scented.

HARDY DECIDUOUS SHRUBS AND TREES

CONCLUDED

Lemoine's New Philadelphus

MANTEAU d'HERMINE—(Cape of Ermine.) Dwarf growing with long, slender branches densely covered from base to top with sweet scented double flowers of creamy-white. In fact the flowers are borne in such great profusion as to totally obscure the plant. Price, 50 cents.

MONT BLANC—The branches of this beautiful variety are covered with white flowers that are deliciously fragrant. A grand species. Price, 50 cents each.

NOTE:—The above two new Philadelphus are away ahead of the old varieties. Being dwarf they are superb for hedge planting.

RHUS COTINUS—(Sumach.) (Purple Fringe or Smoke Tree.) A much admired shrub for its curious fringe or hair-like flowers that cover the whole surface of the plant in mid-summer. Fine plants, 25 cents.

SYRINGA (Lilac)

Well known beautiful shrubs, indispensable in every collection. It is doubtful if anything in the whole range of flowering shrubs surpasses these in grace and elegance, or in hardiness and usefulness. As decorative plants on the lawn or in the border, they are without a peer. All of the Lilacs are deliciously fragrant. One-year plants of Lilacs, twelve to eighteen inches high, 25 cents each; two-year plants, branched, eighteen to twenty-four inches, 50 cents each; the set of nine Lilacs, in one-year-old plants, for \$1.75, in two-year plants the nine for \$3.50.

VULGARIS ALBA—Common white Lilac, very large trusses of cream colored flowers. Extra.

SPIREA

(Meadow Sweet.) These are beautiful shrubs of the easiest culture, very desirable for planting on the lawn in groups or as single specimens. Their blooming extends over a period of three months. One-year, 15 cents each; strong two-year-old plants, 25 cents each.

ANTHONY WATERER—This beautiful gem makes a low, compact bush, and is covered nearly the whole growing season with large umbels of deep crimson flowers which measure nearly a foot across. When scarcely three inches high it begins to bloom, and therefore is seldom out of flower. As a pot plant or for growing in the open ground, nothing can equal it. Perfectly hardy, it is unquestionably one of the really meritorious plants that we cannot have too many of.

PRUNIFOLIA FI. PL.—(Bridal Wreath.) A beautiful shrub from Japan, with double pure white flowers like white daisies in May. Keeps in flower a long time and justly merits to be placed in the front rank among flowering shrubs.

VAN HOUTTEI—At the flowering season in May and early June, the plant is covered with a mass of large white flowers, presenting a beautiful appearance. Very hardy; one of the finest shrubs in the catalogue.

SNOWBALL (Viburnum)

VIBURNUM OPULUS STERILIS—(Guelder Rose.) A well known favorite shrub of large size, with globular clusters of pure white flowers. The Snowball of our mothers' gardens. Blooms in May. One-year plants, 15 cents; two-year plants, 25 cents.

WEIGELA (Diervilla)

They produce in June and July superb large trumpet-shaped flowers that almost hide the plant. They are very desirable for the border or for grouping, and as specimens on the lawn. One-year plants, 15 cents; strong two-year plants, 30c each.

CANDIDA—A vigorous, erect grower, flowers pure white and produced in great profusion in June, and the plants continue to bloom through the summer, even until autumn.

EVA RATHKE—A charming Weigela flower, brilliant crimson. A beautiful distinct clear shade.

ROSEA—An elegant shrub with fine rose colored flowers of erect compact growth. Blossoms in June.
